Additionally, the company ensures that this policy is communicated to executives and employees for strict adherence. The policy is also reviewed annually to keep it up to date and aligned with the company's business operations.

##### Nomination of Directors

The Company recognizes the importance of the roles, duties, and responsibilities of the Board of Directors, who play a critical role in defining business strategies and directions to achieve corporate objectives and ensure sustainable growth. To maintain transparency and fairness in the nomination of Board members, sub-committee members, and senior executives, while complying with relevant laws and regulations in alignment with good corporate governance principles, the Board of Directors has resolved to establish the Nomination and Remuneration Committee. This committee is responsible for identifying, selecting, and proposing qualified candidates for the positions of Board members, sub-committee members, and senior executives (as defined by the SEC). Candidates are then presented to the Board of Directors for appointment or, where required, to the shareholders' meeting for approval, in accordance with the company's bylaws. In cases where Board members complete their terms or when there is a necessity to appoint additional directors or senior executives, the selection process follows the Nomination and Senior Executive Recruitment Policy as approved by the Board. Appointed individuals must meet all required qualifications and must not possess any disqualifying characteristics as specified

under Section 68 of the Public Limited Companies Act B.E. 2535, the Securities and Exchange Act, relevant Capital Market Supervisory Board announcements, and other applicable laws and regulations.

Furthermore, the Company recognizes the importance of diversity within the Board structure and values appropriate differences, which enhance decision-making efficiency and the effectiveness of the Board's responsibilities. Diversity also helps foster a balanced perspective by incorporating a wide range of ideas, experiences, and expertise. Therefore, in the selection of Board members, the Company considers the composition requirements set forth by laws and policies while prioritizing diversity in the Board structure. This process is carried out without restrictions on gender, religion, age, educational background, professional skills, or specialized expertise. The overall composition of the Board is also evaluated in alignment with the Company's current and future business direction.

To support this approach, the Company implements a Board Skill Matrix, which serves as a framework for determining the necessary qualifications for Board members and is reviewed annually. The Nomination and Remuneration Committee also considers various sources for candidate nominations, including recommendations from current Board members, executives, and shareholders. When considering the reappointment of an existing director for another term, the Nomination and Remuneration Committee evaluates several factors, including performance, attendance records, participation in Board meetings, and contributions to Board activities. For independent directors, their continued independence and ability to fulfill their role impartially are also key considerations.
